

Mechanical Shutters – square

in fiber-reinforced composite

Square Mechanical Shutters from Tunetanken.

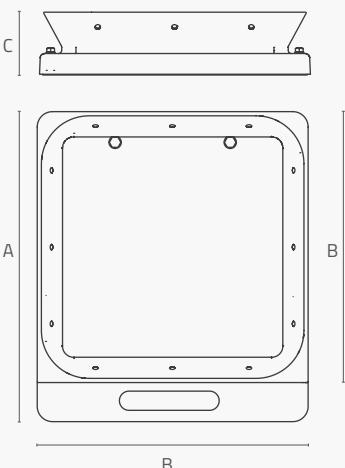

Tunetanken square Mechanical Shutters are available in standard size measuring 300x300 mm.

Tunetanken Mechanical Shutters are made of fiber-reinforced composite material which ensures unique benefits such as:

- > Corrosion resistance.
- > Chemical resistance.
- > Smooth and hygienic surfaces.
- > Great strength and durability.
- > Long life cycle.
- > Minimal maintenance.

Tunetanken can also deliver round Mechanical Shutter models in following diameters: 160 mm, 200 mm and 300 mm. See separate data sheet for more information.

Illustration	Type	Length (A)	Width (B)	Height (C)
	HG 300x300	404	350	82
	HG 400x400	504	450	100
	HG 500x500	604	650	110
