

Mechanical Shutters – round

in fiber-reinforced composite

Round Mechanical Shutters from Tunetanken.

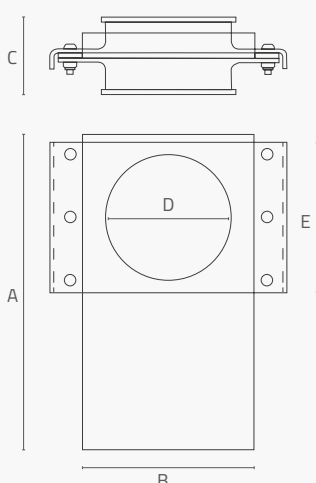

Tunetanken round Mechanical Shutters are available in standard sizes with diameters of 160, 200 and 300 mm.

Mechanical Shutters from Tunetanken are manufactured in fiber-reinforced composite, a material which ensures unique benefits such as:

- > Corrosion resistance.
- > Chemical resistance.
- > Smooth and hygienic surfaces.
- > Great strength and durability.
- > Long life cycle.
- > Minimal maintenance.

Tunetanken offers as well square Mechanical Shutter models – see separate data sheet for more information.

Illustration	Type	Length (A)	Width (B)	Height (C)	Diameter (D)	Width (E)
	OK 160	400	218	97	150	190
	OK 200	550	270	97	200	230
	OK 300	700	368	97	300	340
